PROFESSIONAL SUMMARY

Final-year B.Tech student in **Computer Science and Engineering (AI & ML)** with strong knowledge of Python, SQL, FastAPI, React.js, and REST APIs. Hands-on experience in developing AI-powered web applications and LLM-based solutions through internships and academic projects. **CGPA: 9.04/10.**

TECHNICAL SKILLS

- Languages:** Python, SQL
- Frontend:** HTML, CSS, JavaScript, React.js
- Backend & APIs:** FastAPI, REST APIs, JWT Authentication
- Generative AI:** LLMs, Prompt Engineering, AI Agents
- Tools:** Git, GitHub, VS Code, Google Colab
- Coursework:** OOP, DBMS, Data Structures & Algorithms, Operating Systems, Computer Networks, Machine Learning

EXPERIENCE

Generative AI Intern – Huebits Tech Private Limited May 2026 – Jul 2026

- Gained practical experience in Generative AI, LLMs, prompt engineering, and AI-powered application development.
- Strengthened hands-on skills in Python, FastAPI, React.js, HTML, CSS, and JavaScript through team-based development.
- Developed teamwork, communication, problem-solving, and project coordination skills while working as a team lead.

Backend Developer Intern – Infosys Springboard (Virtual) Jul 2026 – Present

- Gained practical experience in backend development using Python, FastAPI, and REST APIs.
- Learned to develop APIs with request validation, error handling, and external API integration.
- Improved Git, GitHub, debugging, collaboration, and software development practices through team-based work.

PROJECTS

Smart Interview Coach – AI-Powered Mock Interview Platform Live Demo |GitHub

- Built an AI-powered mock interview platform that analyzes resumes and generates role-specific interview questions.
- Integrated LLM APIs to generate questions, evaluate candidate responses, and provide personalized AI-driven feedback.
- Implemented JWT authentication, interview history, and downloadable performance reports.
- Tech Stack:** Python, FastAPI, React.js, SQL, JWT, REST APIs, Groq API.

Enterprise Workflow Automation Platform – Ongoing GitHub

- Developing a workflow automation platform using Python and FastAPI to manage business processes and task orchestration.
- Integrating LLM APIs and external services to enable intelligent decision-making and automated workflow execution.
- Building REST APIs with request validation, structured error handling, and JSON-based data processing.
- Tech Stack:** Python, FastAPI, REST APIs, LLM APIs, JSON, Git.

EDUCATION

Sasi Institute of Technology and Engineering, Tadepalligudem 2023 – Expected 2027

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning) CGPA: 9.04/10

SFS Junior College, Nidadavole 2021 – 2023

Intermediate (AP State Board) 92.7%

CERTIFICATIONS

Certification Details

View

- Python Essentials 1 & 2 – Cisco Networking Academy
- Database Management System (Part 1 & 2) – Infosys Springboard
- AI & ML Certification – National Institute of Technology (NIT) Tiruchirappalli
- Data Analytics Job Simulation – Deloitte

ACHIEVEMENTS

- Secured **84%** in the NPTEL Introduction to Internet of Things (IoT) course.
- Consistently maintained a **9+ CGPA** across the first six semesters of the B.Tech program.
